Consumption.—How often do we hear the death of a friend by the hand of this fell deathout, and when we ask the perfoulars, the answer often is: "They had a humor, it settled on their lungs and they died." Here then it is admitted that humor was the primary cause of their disease. It is these humors upon which we wish to speak. Kennedy's Medical Discovery has been before the public for some twelve years, and in that time its marits have been thoroughly tested; carlificates are daily being received by its Proprietos from all directions, of persons cured of humorous diseases; now if these persons had suffered these humors to remain in their system, they might are this have been main in their system, they might are this have been and be mustered out of service, a great majority of whom will undoubtedly re-entilst and return here soon.

it were, a species of potato rot in the human constitution, which undermines and corrupts all the sources of its vitality and hastens its decay. They are the germ from which spring Consumption, Rheumatism, Heart Disease, Liver Complaints, and Eruptive Diseases, which will be recognized as among those most fatal and destructive to the races of men. So dreadful are its consequences to human life, that it is hardly its consequences to human life, that it is hardly possible to overestimate the importance of an actual, reliable remedy, that can sweep out this scrofulous contamination. We know, then, we shall proclaim welcome news to our readers of one from such a quarter as will leave little doubt of its efficacy—and still more welcome, when we tell them that it surely does accomplish the end desired. L. MILLER would call the attention of Parents and
Guardians to the use of his Invigorator, in cases where
the children's hair inclines to be weak. The use of it
lays the foundation for a good head of heir, as it removes any impurities that may have become connected
with the scalp, the removal of which is necessary both
for the health of the child, and the fature appearance of
its Hair.
